## Hearts Fear

### Hearts Fear

My heart hurts  
It hurts with fear  
A body hovers over mine  
It holds me down  
I'm not able to move  
I'm afraid  
No ones there to help me  
I scream with fear  
No one hears me  
I'm shivering  
The body comes even closer  
When his lips reach mine my heart dies  
I did not want to make contact to him  
I did not want to feel his body so near  
When he withdrew my body lies still  
I feel like I'm dead  
Fear shows in my eyes  
Fear in my heart  
Now...it's broken...
