Kapitel 1: Could you?!

1)

I don't know what to do if I go to you
you go away are you in fear?
I can't sleep I can't eat
I need you to live
without you there is no me
please let your heart win
and don't deny your feelings

B)

is it right what we do?
why is our love wrong?

R)

Could you? Could you? Could you?
hold me?
Could you? Could you? Could you?
kiss me?
Could you? Could you? Could you?

2)

We are same
we are different
is it such a blame?
they say we are on the wrong way
we have to stop
but we just waited too long
they can't understand us

B)

is it right what we do?
why is our love wrong?

R)

Could you? Could you? Could you?
hold me?
Could you? Could you? Could you?
kiss me?
Could you? Could you? Could you?

3)
Don't listen to them
Don't fear, my dear
they'll never understand us
they'll never let us live
but if we are together
we'll fight 'til the end
and then we'll be free!

B)
is it right what we do?
why is our love wrong?

R)
Could you? Could you? Could you?
hold me?
Could you? Could you? Could you?
kiss me?
Could you? Could you? Could you?
