Message to you

*I don't know what to do
In my head is only you
It all is turning around
I hear a depressed Sound
I'm calling you
And you know that my love is true
Where ever I look
Every way I took
I don't want another boy
My life full of joy
I can't get you out of my mind
And I think you are blind
I know, you've got a girl-friend
But I miss the time, we've spent
I want to hear your voice
Take the night choice
I want a kiss
Know you, that you're the one I miss?
I want your love
And I look to the stars above
I'm thinking of you, all the time*
