

I am what I am

but you don't know

Von Shiroy_Haze

And there is this day
I came to see
All you ever guessed about me
all you ever thought about me
it was wrong.
totally wrong

I watch where my thoughts
left my head
and see them fly away
they fly away...

I was wrong
totally wrong

the sun throws
her red shadow into my eyes
and it dries my tears
on my salty cheeks

when did I go
away from all of you
when did I ever feel
what I feel now

No matter how much
I try
I stay the same
I play hide and seek
but noone's there
to search for me

Have I even found myself?
