The Last
Fight

By
Sasuke-kun

Sora, Riku, King Mickey, Donald and Goofy were in Castle oblivion, in a huge Hallway filled with Heartless as far as the eye could see.

Sora hurled his keyblade at 10 Heartless which sent them into the air. The heartless crashed into the ground and shattered releasing their tainted hearts.

Sora quickly summoned back his keyblade and continued to destroy the merciless heartless.

"Thunderga!!!" He yelled as an enormous bolt of lightning obliterated more than 20 heartless. King Mickey wasn't very far away from Sora; the King used his golden keyblade to slice through a few Heartless, yet the massive numbers of heartless seemed to emerge from the darkened floor. Donald and Goofy were plowing their way through the Heartless leaving nothing but their hearts. "Blizzard!!!" Donald yelled as 6 Heartless were frozen solid.

"Hey Sora I bet I can kill more Heartless than you!!!!" Riku shouted from far away but Sora still heard him "I'll take that bet Riku!!!" Sora said taking on the challenge.

Both Sora and Riku began to count, they would shout out a number every time they killed a Heartless, Sora began.

"One!!!!" Sora had tossed his keyblade at more than five heartless yet he only managed

To destroy one.

Riku leaped into the air and came crashing to the ground digging his keyblade into the once clean floors. He yelled "light!!" as huge bolts of light engulfed a certain part of the hall destroying less than 20 Heartless

Then quickly yelled out "18!"

Sora jumped over more than 10 Heartless and landed lightly his feet, next to Riku

"Hey you cheated!!" he said looking at Riku in rile, "You can't use magic!!"

"Who said?!" Riku said in reply.

"I said it!"

"And who are you!!!" He said with a smirk.

"The one who saved the WORLD!!" Sora said with an awesome comes back.

Riku ignored Sora and continued fighting off the Heartless Sora did the same.

Some where higher in the castle.

Kairi sat in a chair horrified for what she saw was EVIL and evil looked back at her...

"W...W...Wha...t....d-...do...yo...you...w...w...wan...t...w...w...with....m..m..m...me....???" Kairi struggled to say over her bounding heart.

This thing it didn't even seem to be a Heartless it had the appearance of a shadow with blood red eyes, it seemed to have no teeth but only the outline of vicious fangs, its claws looked as if you could throw a car at them and on impact it would shred as if it were merely sheets paper.

You could only describe this demon as a Nightmare's...nightmare. How could a Heartless have gotten such a powerful heart or how many hearts could it have collected?

This Demon answered Kairi and said "I...i....i...h...have...no...use....for...you....I...i...w...want....his....heart....heheh...heheh....heheheh....."

It then disappeared into the floor to being it's hunt for "his" heart.
