Gewidmet Sohi, die mit einer Fic challenge "Two people under one blanket" jegliche Hentai Gedanken die ich spontan in meinem Kopf hatte weckte.
Wenn ich das hier veröffentliche, bringt sie mir etwas aus Nihon mit.
Also los!

You are laid back and distant, yet I want you to be near me, although you hurt me. I know deep inside, you want the same.
Just sometimes, sometimes I would like to know what you think, what you really think.

Your Virgin Majesty

And under the covers again, we went to search out undiscovered worlds with our minds eye.
A deep passion that even ignites the blanket barely covering our two bodies.
But nevertheless, don't forget that I could never touch you.
My fingers laid next to your naked back.
Under the covers the intensity of the war's colours were dimmed, and the curve of your spine, it's flow, brings back the 'b' to my 'brain', and takes away the 'p'.
It was another world, here, with your virgin Majesty.
Softened by the blankets,
nuzzled by sleep,
seeming as if you were touched,
but were touched by nothing but Nylon sheets.
Fresh out the dryer,
laid onto
Your Virgin Majesty.
